

Mohamed Ramadan Elsayed

Full Stack Developer

Professional Summary

A results-driven Software Developer and 2019 graduate of the Faculty of Computers and Information, with over six years of hands-on experience in designing and building high-quality web applications. I have delivered dozens of diverse projects, including dynamic systems using PHP (Laravel) and modern, responsive interfaces developed with Livewire, Tailwind CSS, and JavaScript.

I am passionate about transforming ideas into reliable and efficient solutions, with strong capabilities in technical planning and project execution. I consistently deliver scalable systems that enhance business performance while maintaining exceptional code quality and technical support. I aim to continue contributing to organizational success through innovative and impactful technology.

Education

September 2015 - July 2019

Bachelor of Science in Computer Science and Information Faculty of Computers and Information, Shebin El-Kom Campus, Menoufia University | 2019

Trained in software development and algorithms, with a focus on innovative technological solutions. Graduated with Good Honors, including participation in academic projects centered on web application development.

Experience

Freelance Full Stack Web Developer at Various Platforms (e.g., Upwork, nafezly , mostaqi)

June 2021 - Present

- Delivered 30+ dynamic web applications for international clients using PHP and Laravel, focusing on secure, high-performance backend architectures that resulted in strong client satisfaction and repeat business.
- Developed interactive and user-friendly frontend interfaces using Livewire, JavaScript, and jQuery, ensuring smooth functionality and an optimized user experience.
- Built and integrated custom APIs to automate workflows and enable efficient data exchange across e-commerce and service-based systems.
- Designed modern, responsive user interfaces using Tailwind CSS (and Bootstrap when required), ensuring cross-device compatibility and mobile-first performance.
